- **AI & Emerging Tools:** ChatGPT, Claude, AI-Assisted Productivity Tools, Prompt Engineering Concepts

PROFESSIONAL EXPERIENCE

Business Operations & Marketing Associate June 2025 – Present

Brosigo Healthcare Solutions — Enugu, Nigeria

- Spearheaded business development outreach across multiple Nigerian cities, expanding the client base among hospitals, dialysis providers, and medical facilities in Abuja and Enugu.
- Engineered and maintained the company website using HTML5 and CSS, strengthening digital presence and supporting healthcare product marketing.
- Developed branded marketing materials, promotional assets, and business presentations in Canva, enhancing consistency across client-facing communications.
- Coordinated end-to-end client communication, quotations, and account management workflows supporting daily business operations.
- Executed market research to identify growth opportunities, strategic partnerships, and competitive insights for a healthcare solutions provider.

NYSC Corps Member — Corporate Communications Department April 2025 – March 2026

Alex Ekwueme Federal University Teaching Hospital — Abakaliki, Nigeria

- Coordinated planning and execution of institutional events, stakeholder engagements, and corporate communications activities for a major federal teaching hospital.
- Facilitated communication between internal departments, attendees, and external partners, improving participation in hospital programmes and outreach initiatives.
- Supported fundraising and sponsorship initiatives, contributing to resource mobilisation for departmental events and community programmes.
- Collaborated with cross-functional teams to ensure seamless event logistics, administrative operations, and on-the-day delivery.

Corporate Media Intern July 2023 – October 2023

Tenace Professional Services — Lagos, Nigeria

- Developed written and visual content supporting internal corporate initiatives, projects, and strategic communications deliverables.
- Contributed creative ideas and recommendations during strategic planning sessions, aligning outputs with organisational objectives.
- Collaborated with cross-functional team members on content development, brand storytelling, and corporate communication outputs.

Network Engineering & Software Intern Aug 2022 – Mar 2023

Tenace Professional Services / ENVAK Capital & Investment Limited — Lagos, Nigeria

- Completed structured Cisco networking training and Microsoft Azure / Cloud Computing training, building foundational knowledge of enterprise network infrastructure and virtual desktop environments.
- Collaborated with developers to build front-end application modules using ReactJS within an agile development environment.
- Improved user interface functionality through targeted code enhancements and front-end debugging, contributing to higher-quality software releases.

SELECTED TECHNICAL PROJECTS

Full Stack & AI Development Projects | JavaScript, React, Node.js, AI-Assisted Development

- Turing Tech Full Stack & AI Programme (Jan 2026 – Present): building full-stack web applications, applying modern software engineering principles, and integrating AI concepts into project-based learning.

Brosigo Business Website | HTML5, CSS3, Responsive Web Design

- Developed and maintained the company website supporting healthcare product marketing; improved digital brand presence and client acquisition through a mobile-friendly experience.

NaijaBoxd & Personal Portfolio Websites | HTML5, CSS3, Responsive Web Design

- Built a responsive Nollywood-focused movie discovery platform and a personal portfolio site applying semantic HTML, accessibility, and mobile-first design principles.
